Hackmakers #FormulaAI Hack 2022: Honorable Mentions Certificate

Awarded to **Lenin Jimenez**
Issued on 22 mar 2022 at 2:08 a. m.

Offered by
Hackmakers

The #FormulaAI Hack 2022 celebrated the awesome racing culture built by Red Bull Racing, and was centered on the application of best practices in Data Science, UX and 3D Modeling. There were three challenge areas: Data Analytics, Augmented Reality and 3D Modeling. For the #FormulaAI Hackathon, we had 2000+ participants, 130 mentors and 20 regional ambassadors from 12+ countries. It was contributed by over 30+ community partners, with 140+ teams formed to create meaningful solutions. Each challenge required understanding and analysis of various AI and application developmental skillsets. [less]

EARNING CRITERIA
Recipients must complete the earning criteria to earn this badge

The earner of this badge competed in, or mentored the team of the #FormulaAI Hackathon. Honorable mentions teams were judged based on an expert panel from government, industry and peak body on the criterion of originality, impact, quality of code and design and commercial application.

Winners were required to attend an induction session, review the relevant hackathon guidelines and resources, form a team, ideate around a specific challenge, interact with other teams and mentors and ultimately submit a viable solution ranked as one of the top submission by our judges panel.
